Literacy/Math updates:

There will be a curriculum night overview next Tuesday, 9/27 at 7:00pm. Details about 2nd grade literacy and math instruction will be shared. I will go over what our workshop model is for all content areas and what your child will be learning through focused units of study during this upcoming year.

Hope to see you then!

General information:

Book orders are coming home today... Should you choose to order, you have 2 options. 1.) You may place your order online @ www.scholastic.com and enter our class code **MHLPM**. This option allows you to order from *any* catalog and pay with credit. Your order will be shipped to school with any other class orders. 2.) You can send a check made out directly to scholastic with your attached order, and I will place it.

Either way... All orders will be due by Monday Oct. 3.

****Thank you for your support as these orders help me buy classroom books at a reduced cost.**
